

BOWIE

Lolium perenne

- Extended grazing season
- Improved intake
- Highly digestible
- Better animal health

Late heading variety with high forage quality

Bowie has all the attributes of an excellent grazing variety

Grazed grass the the cheapest way of feeding livestock naturally

Bowie is high yielding and palatable with excellent forage quality. Its feeding quality is so good that it has been awarded the Fiber Energy badge.

Fiber Energy varieties are highly digestible with improved livestock intake and better animal health, producing more meat and milk from grazing and reduced production costs for the farmer.

Bowie has a very late heading date and can extend the grazing season into the late summer and autumn

Technical Specifications

- Perennial ryegrass
- Long season grazing variety
- Listed/recommended in EU FR UK
