

HOPEJ

Festulolium

- Good regrowth
- Excellent ground cover
- High dry matter yields in all years
- Better drought tolerance compared to ryegrass

Good Regrowth After Cutting

Experience the convenience of swift regrowth after harvest with Hopej. Enjoy shorter turnaround times between cuts, maximizing your yield potential with minimal downtime.

Excellent Ground Cover

Troubled by weeds lowering your forage quality? Choose Hopej for your grasslands. It offers exceptional ground cover, effectively outcompeting weeds and preserving the superior quality of your feed.

High Dry Matter Yield

Expect nothing but high yields with Hopej. Enjoy consistently high dry matter yields, ensuring a steady and abundant supply of quality feed for your livestock each year.

Superior Drought Tolerance

Beat the odds with Hopej's exceptional resilience to drought. Compared to ryegrasses, Hopej thrives even in challenging conditions, providing you with peace of mind during dry spells.

Technical Specifications

- Festulolium
- Robust, high yielding variety with excellent ground cover
- Listed/recommended in EU SK CZ
