

BONNIE

Lolium perenne

- Top-rated variety for sports fields and lawn use in France.
- Highly recommended in Germany for heavily used lawn and sport areas
- Unmatched wear tolerance for high-traffic areas
- Superior disease resistance to Drechslera leaf spot.
- A reliable and low-maintenance choice for any outdoor area in diverse climatic conditions

Durable and Resilient Grass Perfect for All Your Outdoor Areas

Bonnie is the ultimate solution for groundskeepers who need a grass variety that can withstand heavy traffic, numerous games, and all sorts of weather. Bonnie is top-rated in France and Germany for both sport and lawn use for its unmatched wear tolerance and excellent adaptability to different soil types. It is ideal for areas that require frequent and heavy use, such as golf courses, athletic fields, and parks.

Get an Edge Against Lawn Diseases with Bonnie

One of the most significant challenges in maintaining any lawn or sports field is keeping it free from diseases. With Bonnie, you have an edge over other varieties as it boasts exceptional disease resistance against Drechslera leaf spot. This means your sports field or lawn will remain lush, healthy, and vibrant even when faced with common diseases that could otherwise devastate other grass varieties.

In conclusion, if you're looking for a top-quality grass variety for your sports arena or heavily used lawn or park, you should definitely consider using Bonnie. With its extraordinary wear tolerance and disease resistance, there is no doubt that it is a top pick for sports and lawn enthusiasts alike in various climatic conditions.
