

DUPARC

Lolium perenne

- Excellent wear tolerance
- Visual merit at top level winter AND summer
- Tolerance to common diseases
- Very high density and fine leaves

Excellent performance during winter months

DUPARC sets apart with an exceptional index for sport use on the French list.

It is a combination of winter visual merit and wear tolerance.

...and suited for lawn use too

DUPARC is also top ranked for use in lawns! It is not a surprise in view of the high density and fineness of leaves and high visual merit in winter as well as summer.

Very good disease tolerance

DUPARC has shown high tolerance against several common diseases:

Rusts
Red thread
Microdochium (Fusarium)
Leaf spot.

Technical Specifications

- Perennial ryegrass
- Number 1 for Sport...and by the way for Lawn too!
- Listed/recommended in EU FR UK

Excellent disease tolerance
